

April 2016

Advent Technologies participation at the 21st Group Exhibit Hydrogen and Fuel Cells and Batteries, HANNOVER MESSE April 25-29th , 2016 Hall 27, C66

Advent Technologies attended the 22nd Group Exhibit at the Hannover Messe, Europe's largest hydrogen and fuel cells exhibition with representatives from both USA and Greece. The show had 160 exhibitors from 25 countries in a 5.000 m² exhibition area, representing the sectors of hydrogen, fuels cells and batteries.

Dr Emory De Castro, CTO of the company, gave an interview in the public forum announcing a new opportunity for Advent High Temperature Membrane Electrode Assemblies in hydrogen purification and concentration via an Electrochemical Hydrogen Separation mode.
