

## PRESS RELEASE

April 2014

### **Advent Technologies participation at the 20th Group Exhibit Hydrogen and Fuel Cells at HANNOVER MESSE April 7-11, 2014 Hall 27, B 66**

Advent Technologies attended the 20th Group Exhibit at the Hannover Messe, Europe's largest hydrogen and fuel cells exhibition with representatives from both East Hartford and Greece. The show had 150+ exhibitors from 25 countries in a 5.000 m<sup>2</sup> exhibition area, representing the sectors of fuels cells, energy storage etc.

The company presented recent developments on Advent Technologies HT MEAs including Advent PBI products in addition to standard Advent TPS<sup>®</sup> products. Advent also announced the acquiring of license from BASF to produce their high temperature membrane electrode assembly (MEA) and gas diffusion electrodes (GDEs)

Dr. N. Gourdoupi R&D Manager, Dr. E. De Castro CTO
